

SCOOP ALARM MONITORING SYSTEM

BENEFITS

NOTICEABLE "BEEP"
PREVENTS PROLONGED
ICE SCOOP DISPLACEMENT

ADJUSTABLE SOUND LEVELS
MAKE ALARM AUDIBLE IN
ANY ENVIRONMENT

DUAL GERM GUARDS AND DEDICATED
STORAGE PREVENT DANGEROUS
CONTAMINANT EXPOSURE

In a busy kitchen, conventional ice scoops can be easily forgotten outside of designated storage areas, posing a danger to patrons. Be sure your scoop is always correctly returned and safe for use with the Scoop Alarm Monitoring System from San Jamar.

Protect Your Patrons by Protecting Your Ice

A noticeable beep alerts the user of prolonged scoop displacement, reminding them to return the unit to the holster.

Adjustable Sound Levels

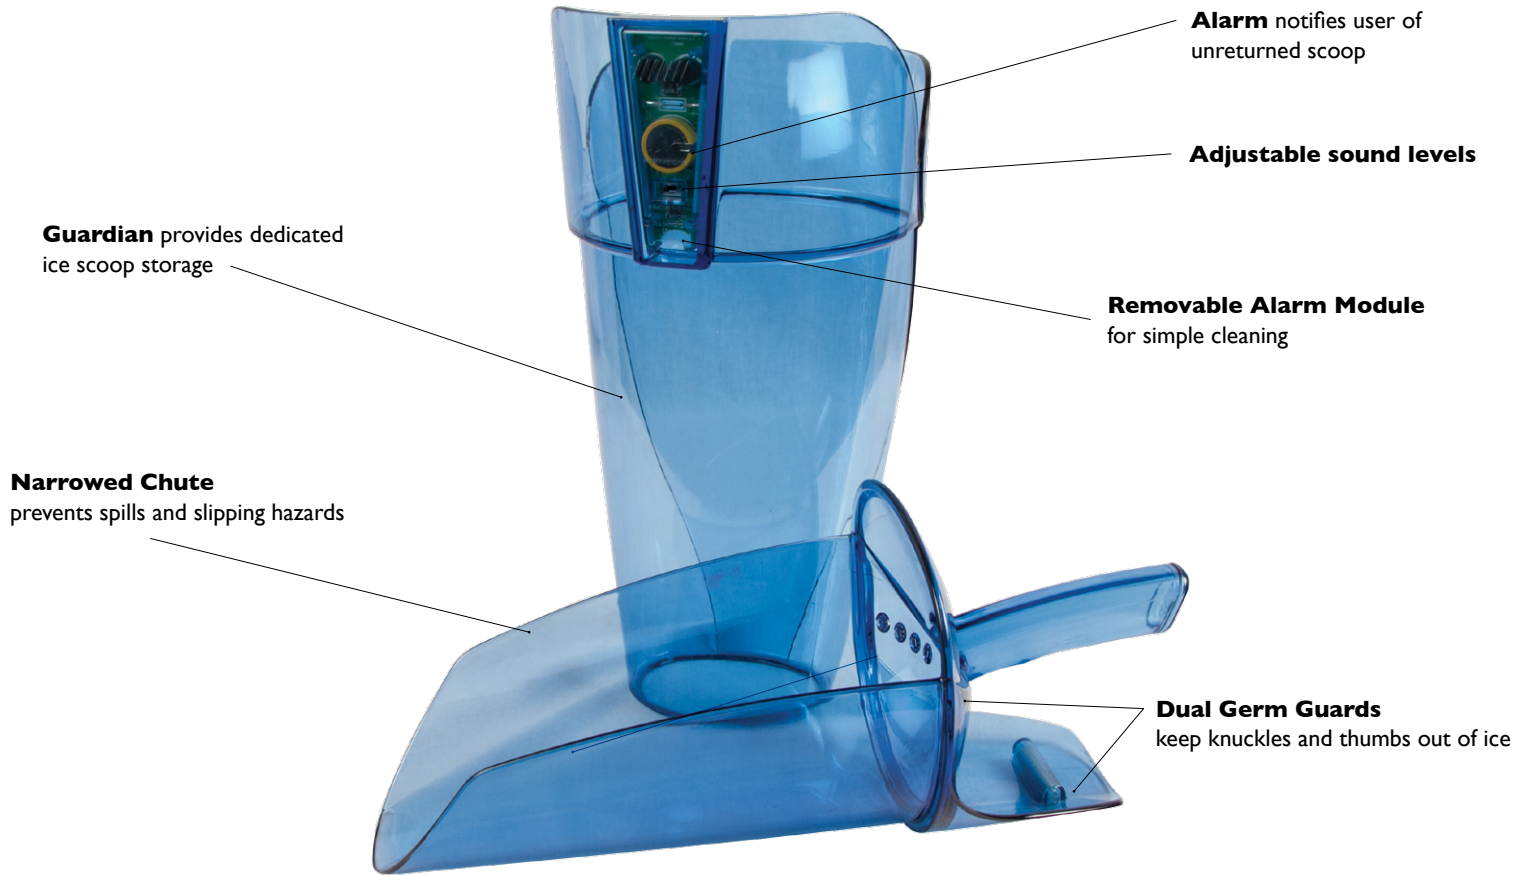

The Scoop Alarm features multiple sound frequencies including "Low," "High," and "Wash" mode, making it perfect for any foodservice environment.

Innovative Addition to Classic San Jamar Design

The scoop alarm is integrated into San Jamar's existing Scoop and Guardian system. The Dual Germ guards, narrowed chute, and dedicated storage set the standard for ice safety.
