Microwave Specifications and Features:

Marren ISM-1800 Heavy Duty Commercial Microwave comprises a user-friendly touch pad, programmable with up to 100 auto settings and 00:60:00 minutes of maximum cook time for each program. Includes a USB feature for consistent menu optimisation and fitted with an interior LED light to help monitor food items, without the need to open the door. The oven has 11 power levels and 3 cooking stages, featuring a time entry option and X2, X3 multiple quantity touch pad. Manufactured with 1800W of power, distributed by dual magnetrons and delivered by top and bottom rotating antenna for even cooking and speed of use. The large 0.63 cubic ft. (17.9L) cavity is perfect for food outlets with high volume food demands and comes with stainless steel durable door and EZ Grab and Go handle with 90°+ opening for easy access. Manufactured with stainless steel exterior wrap, door, interior cavity, removable roof liner and stainless steel air intake filter for easy cleaning. Designed to be stacked with the same style oven to help reduce footprint. Requires a 230v power supply and supplied with a 13a plug for ease of installation. Cavity liner available as an optional extra.

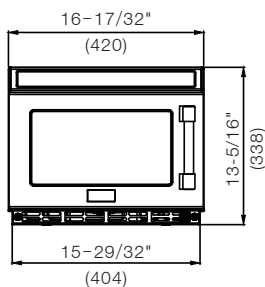

Marren ISM-1800 1800W

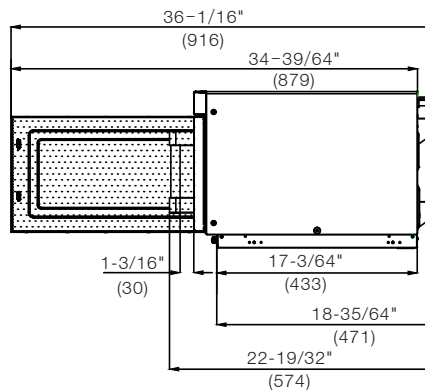

Specifications and Features

- Large capacity (0.63 cu.ft/17.9L), accommodates a 12" (305 mm) platter
- Able to withstand the demands of the Commercial Foodservice environment with a stainless steel cabinet and oven cavity
- 1800 Watts of Cooking power
- Top and Bottom Energy Feed
- 11 power levels and 3 cooking stages for different cooking demands
- 00:60:00 maximum cooking time and 100 auto programs can cover most product demands
- User-friendly touch control pad, great for self-service locations and speed of use
- Time entry option and X2, X3 multiple quantity pad provided for flexible operation
- USB port for efficient and consistent menu optimisation used for multiple locations
